

# ECHO Autism SK

## Early Intervention

### Project ECHO: Extension for Community Healthcare Outcomes

Health, school, and private speech-language pathologists, occupational therapists, physical therapists, social workers, autism consultants, behavior therapists, and psychologists

Prepare your Early Intervention Team members to be **Autism Ready™**.

**ECHO Autism** bridges the care gap between autism specialists, community health care clinicians, and children with autism

#### How ECHO works

- Clinicians receive specific **case guidance** on children at risk with autism
- Participate in a convenient, **web-based** small-group format
- Learn and share **best practices** for managing medical and psychiatric conditions, connecting with community resources, and family/caregiver support

#### What you get from ECHO

- Real-time **case guidance** with multidisciplinary team of autism experts
- Learn **best practices for early intervention for children with autism** up to 8 years of age
- Meet a **network of other providers** handling similar challenges
- Increase self-efficacy in **delivering** evidence based early intervention therapy for your children with autism

**Questions?** Contact Cheri Wilson at [cheri.wilson@saskhealthauthority.ca](mailto:cheri.wilson@saskhealthauthority.ca)
